Some of our Democratic contemporaries said Mr. Sherman was not suited for Secretary of State in McKinley's Cabinet. He has spoken to Spain in a very decided manner, and the result has been a great success in freeing American citizens who had long suffered cruel imprisonment in Cuban dungeons. Trotting Horse Breeders Have Been Too

The general and universal depression in the trotting horse business during the last three years has bred a great deal of inexcusable carelessness on the part of breeders and owners of stallions bearing on the subject of establishing and verifying pedigrees, says the Western Horseman. As is well known, under the ruling of the Register asso ciation an animal cannot be registered without a certificate from the owner of also a certificate from the owner of the dam at the time she was bred. During recent years all owners have been more much brighter for the breeding interest, owners are growing proportionateand sold them unregistered, and owners furnishing evidences to establish breeding when called upon. This is not right. Any breeder who sells an animal unregistered is in honor bound to promptly furnish evidence of breeding when called upon, and an owner of a sire who will not promptly furnish the evidence of breeding when called upon, and an owner of a sire who will not promptly furnish the evidence that a certain mare was bred to his horse on a certain date when applied to for that evidence, is not entitled to the patronage of other breeders.

Compounding Prescriptions To All Whom it May Concern:

Always correct, and containing only pure and fresh drugs-that's the rule that governs our prescription department and has secured us the absolute confidence of the public. On this point physicians do not disagree. They recognize the logic of facts.

WHAT WE ARE WE SHALL CONTINUE TO BE---

The always reliable pharmacy of Tazewell, and general headquarters for drugs and everything in the drug line. Remember this: There's one thing on earth that must always be above suspicion; that's drugs. Your doctor knows precisely how certain medicines will act upon the system and when he specifies a particular kind of drug he has scientific reasons for so doing. He means just what he writes in the prescription and not something else "just as good." The recovery or death of many of his patients rests with the druggist.

WE FULLY REALIZE THIS GREAT RESPONSIBILITY

Every time we compound a prescription. We back up the doctors knowledge and judgment by furnishing the exact quantity and quality of drugs and medicines required. We solicit the patronagof all thoughtful and justice leving
